

Shields River Road Environmental Assessment

Table of Contents

CHAPTER 1 – Purpose and Need for Action	1-1
I. Introduction	1-1
II. Background Information	1-1
III. Description of the Proposed Action and Purpose for that Action	1-2
Description	1-2
Purpose and Need	1-4
IV. Project Area Location and Description	1-5
V. Scope	1-6
The Project's Relationship to the Forest's Travel Planning Effort	1-7
The Scope of Analysis	1-7
Park County Agreements and Involvement	1-8
VI. Relationship to the Gallatin Forest Plan	1-9
Project-specific Forest Plan Amendments	1-10
VII. Potential Cumulative Effects	1-11
Geographical Location	1-11
Timing and Duration	1-11
Potential Cumulative Effects	1-11
VIII. Decision To Be Made	1-11
CHAPTER 2- Issues and Alternatives	2-1
I. Introduction	2-1
II. Public Involvement and Scoping Process	2-1
III. Identification of Issues	2-2
IV. Significant Issues	2-2
V. Other Analysis Issues	2-5
VI. Alternatives Considered in Detailed Study	2-6
Alternative A – Proposed Action with a Gravel Pit on National Forest	2-6
Alternative B – Proposed Action with a Gravel Pit Not on National Forest	2-7
Alternative C – No Action	2-7
VII. Mitigation and Features Common to All Action Alternatives	2-8
Water Quality	2-8
Soils Protection	2-8
Soil Quality Guidelines	2-8
Vegetation Management	2-9
Noxious Weeds	2-9
Requirements to be Included in the Road Contract	2-9
Forest Service Responsibilities	2-10
Recreation	2-10
Mitigation and Project Design Features	2-11
Heritage	2-11
Previously Identified Heritage Resources	2-11
Results of the 2003 Fieldwork	2-11

Public Safety (Construction, Signs, Restrictions)	2-12
Effects of construction on uses occurring on private land	2-12
Effects of construction on wetlands.....	2-14
VIII. Project Monitoring.....	2-15
Project Implementation	2-15
Public Safety	2-15
Noxious Weed Occurrence	2-15
Wetlands	2-15
Wildlife.....	2-16
IX. Alternatives Eliminated From Detailed Study.....	2-16
Alternative D – Forest Service/Park County Agreement Only	2-16
Alternative E – Shields River Floodplain	2-17
Alternative F – No Stream Channel Modification	2-17
Alternative G – Develop a Gravel Source on Private Land	2-18
X. Comparison of Alternatives.....	2-19

CHAPTER 3 – Affected Environment and Environmental Consequences.....	3-1
I. Introduction	3-1
II. Applicability of the Forest Plan, Laws, Regulations, Policies, and Other Direction	3-1
Forest Plan Management Direction.....	3-1
Federal Laws	3-3
National Forest Management Act of 1976/Gallatin Forest Plan	3-3
Endangered Species Act of 1973.....	3-3
Migratory Bird Treaty Act (16 USC 703-711)	3-4
Presidential Executive Order 12962 (June 1995).....	3-4
Clean Water Act.....	3-5
Heritage Program Laws	3-5
State Laws	3-6
The State of Montana Water Quality Act (1969, 1975, 1993, 1996).....	3-6
Other Required Disclosures	3-6
Unique Characteristics of the Geographic Area	3-6
Effects of Alternatives on Prime Farmland, Rangeland, and Forest Land.....	3-6
Effects of Alternatives on Floodplains and Wetlands	3-7
Effects of Alternatives on Social Groups	3-7
Short-term Use versus Maintenance and Enhancement of Long-term Productivity	3-7
Irreversible and Irretrievable Commitment of Resources	3-8
Possible Conflicts with Other Land Use Plans, Policies, and Controls.....	3-8
Energy Requirements and Conservation Potential of Alternatives.....	3-8
Probable Adverse Environmental Effects that Cannot Be Avoided	3-8
Environmental Justice	3-9
III. Issues Described in Detail	3-9
Issue 1	3-9
Indicator	3-9
Concern	3-9
Affected Environment.....	3-10
Direct/Indirect Effects	3-12
Alternative A – Proposed Action with a Gravel Pit On National Forest	3-12
Alternative B – Proposed Action with a Gravel Pit Not On National Forest.....	3-14

Alternative C – No Action	3-14
Cumulative Effects	3-14
Consistency with Laws, Regulations, and Policy	3-15
Irreversible and Irretrievable Commitments of Resources	3-16
Issue 2	3-16
Indicator	3-16
Concern	3-16
Scale of Analysis.....	3-16
Affected Environment.....	3-16
Direct/Indirect Effects	3-17
Alternative A – Proposed Action with a Gravel Pit On National Forest	3-17
Requirements to be Included in the Road Contract	3-17
Forest Service Responsibilities	3-18
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	3-18
Alternative C – No Action.....	3-19
Cumulative Effects	3-19
Consistency with Laws, Regulations, and Policy	3-19
Irreversible and Irretrievable Commitments of Resources	3-19
Issue 3	3-20
Indicator	3-20
Concern	3-20
Affected Environment.....	3-20
Direct/Indirect Effects	3-21
Alternative A – Proposed Action with a Gravel Pit On National Forest	3-21
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	3-22
Alternative C – No Action.....	3-22
Cumulative Effects	3-24
Recreation Management Area Standards	3-25
Management Area 7 Recreation Standards.....	3-25
Management Area 8 Recreation Standards.....	3-25
Road and Trail Standards	3-26
Irreversible and Irretrievable Commitments of Resources	3-26
Issue 4	3-26
Indicator	3-26
Concern	3-26
Affected Environment.....	3-27
Direct/Indirect Effects	3-27
Alternative A – Proposed Action with a Gravel Pit On National Forest	3-27
During Construction	3-27
Post Construction	3-28
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	3-29
During Construction	3-29
Post Construction	3-29
Alternative C – No Action.....	3-30
Cumulative Effects	3-30
Consistency with Laws, Regulations, and Policy	3-30
Irreversible and Irretrievable Commitments of Resources	3-30
IV. References and Literature Cited	3-32

CHAPTER 4 – Consultation and Coordination	4-1
I. Introduction	4-1
II. List of Primary Preparers	4-1
III. Summary of Scoping, Public Involvement, and Comments	4-1
IV. Agencies, Organizations and Individuals Contacted During Scoping Process	4-2
V. Public Involvement and Distribution of the Predecisional Environmental Assessment.....	4-3
APPENDIX A – Other Analysis Issues	A-1
Introduction	A-1
Sensitive plant species, wildlife, and their habitat.....	A-1
Indicator	A-1
Concern	A-1
Introduction	A-1
Species Considered	A-3
Affected Environment.....	A-6
Methodology for Analysis	A-6
Effects Analysis Parameters	A-7
Scale of Analysis.....	A-7
Cumulative Effects Parameters.....	A-7
Effects to Identified Species to Analyze	A-8
Canada Lynx	A-8
Indicator	A-8
Affected Environment.....	A-8
Direct/Indirect/Cumulative Effects	A-10
Alternative A – Proposed Action with a Gravel Pit On National Forest	A-10
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-11
Alternative C – No Action	A-11
Bald Eagle.....	A-11
Indicator	A-11
Affected Environment.....	A-11
Direct/Indirect/Cumulative Effects	A-12
Alternative A – Proposed Action with a Gravel Pit On National Forest.....	A-12
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-12
Alternative C – No Action	A-12
Gray Wolf	A-12
Indicator	A-12
Affected Environment.....	A-12
Direct/Indirect/Cumulative Effects	A-13
Alternative A – Proposed Action with a Gravel Pit On National Forest	A-13
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-13
Alternative C – No Action	A-13
Biological Assessment Determination: Canada Lynx, Bald Eagle, and Gray Wolf.....	A-14
Wolverine	A-14
Indicator	A-14
Affected Environment.....	A-14
Direct/Indirect/Cumulative Effects	A-15
Alternative A – Proposed Action with a Gravel Pit On National Forest	A-15
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-15

Alternative C – No Action	A-16
Boreal Toad and Northern Leopard Frog	A-16
Indicator	A-16
Affected Environment.....	A-16
Direct/Indirect/Cumulative Effects	A-17
Alternative A – Proposed Action with a Gravel Pit On National Forest.....	A-17
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-18
Alternative C – No Action	A-18
Biological Evaluation Determination: Wolverine, Boreal Toad, and Northern Leopard Frog.....	A-18
Elk	A-18
Indicator	A-18
Affected Environment.....	A-19
Direct/Indirect/Cumulative Effects	A-19
Alternative A – Proposed Action with a Gravel Pit On National Forest.....	A-19
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-20
Alternative C – No Action	A-20
Other Wildlife Species of Concern	A-20
Indicator	A-20
Affected Environment.....	A-20
Direct/Indirect/Cumulative Effects	A-21
Alternative A – Proposed Action with a Gravel Pit On National Forest.....	A-21
Alternative B – Proposed Action with a Gravel Pit Not On National Forest	A-21
Alternative C – No Action	A-22
Heritage Resources	A-22
Indicator	A-22
Concern	A-22
Scale of Analysis.....	A-22
Affected Environment.....	A-22
Direct/Indirect/Cumulative Effects	A-22
Energy Efficiency	A-23
Indicator	A-23
Concern	A-23
Scale of Analysis.....	A-23
Affected Environment.....	A-23
Direct/Indirect/Cumulative Effects	A-23
Cost Effectiveness	A-23
Indicator	A-24
Concern	A-24
Scale of Analysis.....	A-24
Affected Environment.....	A-24
Direct/Indirect/Cumulative Effects	A-24
Compatibility with current land uses during and after construction	A-24
Indicator	A-24
Concern	A-24
Scale of Analysis.....	A-25
Affected Environment.....	A-25
Direct/Indirect/Cumulative Effects	A-25

APPENDIX B – Best Management Practices	B-1
Introduction	B-1
BMP Implementation Process.....	B-2
Format of the BMPs	B-4
Items Common To All Soil and Water Conservation Practices	B-4
Soil Protection Guidelines For Gravel Pit Development in the Lower Shields River Drainage.....	B-14

MAPS**Chapter 1**

Vicinity Map.....	1-13
-------------------	------

Chapter 2

Alternative A: Proposed Action with a Gravel Pit On National Forest	2-21
Alternative B: Proposed Action with a Gravel Pit Not On National Forest.....	2-22
Alternative C: No Action	2-23

TABLES**Chapter 2**

Table 2-1: Comparison of Alternatives.....	2-19
--	------

Chapter 3

Table 3-1: Summary of Effects: Sensitive, Threatened, Endangered or Sensitive Animal Species	3-4
Table 3-2: Rates of Flow For Flood Events On the Shields River, South Fork of the Shields River and Deep Creek	3-11
Table 3-3: Additional Construction Related Traffic Volumes	3-27

Appendix A

Table A-1: Animal Species Considered for Shields Road Upgrade project.....	A-4
Table A-2: Plant Species Considered for Shields Road Upgrade project	A-5
Table A-3: LAU Habitat within the Shields River Road Upgrade Project Area	A-10
